Learn Web Building

Learn how to create a website on your own computer  
Learn the basics of web building in less than a day  
Learn how to add a database to your website

Web Building Tutorial

Learn Web Building

Learn by 100 examples! Because ASP scripts are executed on the server, you can not view ASP code in a browser, you will only see the output from ASP which is plain HTML. At W3Schools every example displays the hidden ASP code. This will make it easier for you to understand how it works.
